TRICARE Online Patient Portal

PATIENT PORTAL
TRICARE® Online

The TRICARE Online Patient Portal (TOL PP) features secure 365x24x7 access to information and services to help you and your family members manage health care received at a military hospital or clinic. Access using your DoD Common Access Card, Defense Finance and Accounting Services myPay, or Premium DoD Self-Service Logon account. Contact Defense Health Agency Global Service Center for assistance at 800-600-9332.

Appointments – Make, change or cancel appointments at your Military Treatment Facility (MTF). Receive email and/or text reminders. View past / future appointments as well as referrals. Obtain appointment instructions.

Prescriptions – Request refills or new prescription fills for pick up at a MTF pharmacy location for you and your family members. Check status of prescriptions. Receive email and/or text confirmations with pick up date and time.

Health Record – View or download up to 30 years of personal health data for you and your children under 12 yrs old. Data includes: lab and radiology results; vitals; encounters (with notes); health care artifacts and images; immunizations; medications and allergy profiles; and problem lists. View COVID-19 and influenza lab results, as well as allergy, vital sign and immunizations data for your children ages 12 through 17.
PATIENT PORTAL
TRICARE® Online

Service Separation/Retirement – Supports separating from active duty to include information about Separation History & Physical Examination and filing a Department of Veteran Affairs disability (VA) claim.
Secure Messaging – Single sign on access to communicate securely with your health care team for non-emergency health care advice, request Prescription renewals and receive MTF updates.

Nurse Advice Line – Talk to a registered nurse 24x7. Get health care advice, ask questions or find out if you should obtain care and where.

COVID-19 Resources – Access links to information about COVID-19 symptoms, testing and vaccinations. View guidance on securely sharing COVID-19 details with your provider team via Secure Messaging and using TOL PP to gather Health Record data.
